## 1. FIRM OVERVIEW

## 1.1. INTRODUCTION

CINCINNATI ASSET MANAGEMENT

Cincinnati Asset Management, Inc. has specialized in the management of fixed income strategies for individuals, financial professionals, and institutions for over 30 years.

We concentrate our efforts exclusively in the U.S. taxable corporate bond market, managing a wide range of strategies from short to intermediate duration, investment grade to high yield, as well as ESG focused. In all cases, fundamental credit research is a primary element of our security selection process.

CAM is an independent investment advisor registered with the SEC and structured as a corporation that is employee owned. The strength of our Firm lies with our niche focus, commitment to our investment process and depth of experience of our Managing Directors and employees. Our average portfolio manager experience is 30 years and we are responsible for managing \$3.2 Billion as of 12/31/21.

## 1.2. BENEFITS OF EMPLOYING A BOND MANAGER

### **CREDIT ANALYSIS**

We buy bonds of companies whose credit quality is stable to improving. Continuous monitoring of the corporation's credit quality is imperative to determine when a bond's price no longer reflects its actual credit quality.

### **CONSISTENT APPLICATION OF AN INVESTMENT STRATEGY**

Our relative value approach to buying and selling bonds meets defined objectives of intermediate maturity and best value, as well as broad diversification of holdings.

### **BUYING/SELLING IN THE OVER-THE-COUNTER MARKET**

The bond market is an over-the-counter market that requires knowledge of historical pricing and the different bid/ask quotations of the many different market makers. Investment grade and high yield corporate bonds cover over 20,000 separate issues of over 2,000 companies; inventories are exclusive, or vary, among brokers, so having the ability to trade with best execution with many different brokers is imperative to achieving better portfolio performance.

### **EXECUTING IN SIZE**

It is not unusual to observe significant price disparities between smaller retail executions and larger block trades. We buy/sell for all our clients in sufficient quantity in one trade to satisfy the needs of all our clients' portfolios; the smaller retail investor participates at the same price as the larger institutional client when a transaction is effected.

### **SPECIALIZED MANAGERS OF US CORPORATE DEBT**

**We believe that managing corporate bonds allows us to capitalize on the structural inefficiencies of the corporate bond market and to maximize favorable risk/reward scenarios that exist within domestic fixed income markets.**

- Investors' tendency to overreact to events resulting in mispricing of securities.
- Lack of a centralized pricing source

### **QUALITY FOCUSED**

**Bottom up fundamental research**

- Stable management
- Appropriately structured debt
- Good free cash flow
- Attractive relative valuations
- Structural underweight to lower rated credits

### **INTEREST RATE AGNOSTIC**

**We do not utilize interest rate anticipation tactics. We look to minimize the impact of interest rate risk from the investment process by employing defensive maturity structure within the portfolio.**

## 1.3. INVESTMENT PHILOSOPHY

### INTEREST RATE AGNOSTIC

Historically, interest rates have been hard to predict. Rarely do economists' projections match up with the actual rates a year later and often miss the direction of the rate move entirely.

#### 10 YEAR TREASURY ACTUAL QUARTERLY AVERAGE WITH 1, 2, 3, 4 QUARTER FORECASTS

Graph 1<sup>1</sup>

<sup>2</sup> Prediction Source: Philadelphia Fed Survey of Professional Forecasters. 10 Year US Treasury Yield Source: U.S. Department of the Treasury. The 10 Year US Treasury yields defined as yield as of the first day of each calendar quarter.

## 1.4. INVESTMENT PROCESS

**Step 1:**

Select issuers that possess favorable asset strength relative to their peers, an appropriate capital structure, and are trading cheap relative to the market.

**Step 2:**

Identify portfolio candidates which we believe have potential to increase revenues and cash flow.

**Step 3:**

Build our “focus list” from those candidates that we consider to have a better competitive advantage.

**Step 4:**

Construct portfolio through our proprietary analytical discipline that measures the yield of a security to our assessment of that security’s quality.

After the initial invest-up, our constant objective is to improve the quality, increase yield, and shorten the maturity.

## 1.5. RISK MANAGEMENT

Risk management is an integral part of our investment process given our primary objective of preservation of capital. In addition to security selection, risk management is employed through portfolio diversification, liquidity and constant monitoring of individual credits.

Liquidity and safety are enhanced by investing only in bonds with an initial issue size generally in excess of \$100,000,000.

We mitigate risk by targeting a maximum industry group exposure of approximately 15%. Targeted sector exposure is capped at approximately 20%, with an exception of up to 40% in Financial Institutions due to sector size within the Investment Grade Corporate Universe<sup>3</sup>.

Individual credits are monitored continuously; a deterioration of 10%, relative to the index, from initial purchase triggers a mandatory credit review in which appropriate action is promptly determined.

<sup>3</sup> Sector is defined as Bloomberg Level 3 classification and Industry Group is defined as Bloomberg Level 4 classification.

## 1.6. STRATEGIES OVERVIEW

CINCINNATI ASSET MANAGEMENT

### INTERMEDIATE

For investors interested in adding corporate bond exposure to the intermediate part of the yield curve, which has historically offered a favorable risk/reward opportunity.

Corporate Bond SMA Strategies	Target Average Credit Rating	Average Maturity	Target Diversification	Inception Date	Account Minimum <sup>iii</sup>
<b>Investment Grade</b>	A3 minimum <sup>ii</sup>	5-10 years	20-25 issues	1/1/1993	\$100K
<b>High Yield</b>	Ba3 <sup>i</sup>	4-8 years	33-40 issues	4/1/1989	\$100K
<b>Broad Market</b> <i>67% Investment Grade / 33% High Yield Blend</i>	Baa2 <sup>i</sup>	7-9 years	55-60 issues	1/1/2002	\$300K

### SHORT TERM

For investors interested in a shorter maturity profile that historically is less affected by changes in interest rates.

Corporate Bond SMA Strategies	Target Average Credit Rating	Average Maturity	Target Diversification	Inception Date	Account Minimum <sup>iii</sup>
<b>Short Duration</b> <i>50% Investment Grade / 50% High Yield Blend</i>	Baa3 <sup>i</sup>	3-5 years	25-30 issues	6/1/2004	\$250K
<b>Short Duration - Investment Grade Only</b>	A2 <sup>ii</sup>	3-5 years	20 issues	12/1/2008	\$100K

### ESG

For conservative investors who are interested in corporations that focus on Environmental, Social and Governance factors.

Corporate Bond SMA Strategies	Target Average Credit Rating	Average Maturity	Target Diversification	Inception Date	Account Minimum <sup>iii</sup>
<b>ESG Aware</b>	A3 <sup>ii</sup>	5-10 years	20-25 issues	1/1/2020	\$100K
<b>ESG Leaders</b>	BAA <sup>ii</sup>	5-10 years	20-25 issues	1/1/2020	\$100K

<sup>i</sup> Moody's Rating Organization

<sup>ii</sup> Bloomberg Barclays Index Rating

<sup>iii</sup> Account minimums may vary by financial institution.

## 2. SHORT DURATION INVESTMENT GRADE CORPORATE BOND SMA

### **Randall S. Hale**

Randy started his career with Cincinnati Financial Corporation in 1984. Prior to joining CAM, Randy managed the taxable fixed income portfolio at Cincinnati Financial, an S&P 500 insurance holding company. The \$1 billion portfolio included a significant exposure to high yield securities. Responsibilities included investment strategy, research and trading. B.S. Finance, Olivet Nazarene University.

### **Richard J. Gardner**

Rick began his career with Banc One Funds in 1993. His career also includes portfolio management for The Federal Home Loan Bank and Huntington National Bank, where he managed several corporate and government bond mutual funds. Prior to joining CAM, he was a Senior Portfolio Manager for the \$1.2 billion Ohio Police and Fire Pension Fund. B.S. Finance and Accounting, Wright State University.

### **Joshua M. Adams, CFA**

Josh began his career in 2004 with Cincinnati Financial Corporation where he was responsible for managing a portion of a multibillion-dollar bond portfolio. He has focused on fixed income for the majority of his career and has extensive experience in both investment grade and high yield corporate credit. Josh has earned the Chartered Financial Analyst designation. B.S.B.A. Finance, The Ohio State University; MBA, Xavier University.

## 2.2. SHORT DURATION INVESTMENT GRADE OVERVIEW

**The portfolio management team employs a “Value” strategy.**

We purchase only corporate bonds and seek those that are undervalued. Investment decisions made by the management team are based on independent fundamental credit analysis, relative value comparisons and yield curve considerations.

**An investment grade (A3 minimum) average credit rating is the constant target.**

BAA/BA bonds are purchased to enhance cash flow, reduce interest rate sensitivity and provide greater potential capital appreciation. In the event of a downgrade, the security may be held if we anticipate credit improvement in the future.

**Portfolios are fully invested with an average maturity in the intermediate range, typically 3-5 years.**

As such, we are “Market Neutral” avoiding interest rate anticipation or market timing. Our focus is on the potential future value of individual corporate issuers based on potential earnings growth and stability over the long term.

**Illiquid and volatile issues are avoided.**

We purchase only larger issue, U.S. dollar denominated registered public corporate bonds.

**A strict sell discipline is employed.**

Issues and issuers are analyzed regularly to ensure that gains are captured, relative value is optimized, and capital is preserved.

**Portfolios are diversified.**

Portfolios contain at least 20 equally weighted positions.

**A historical low turnover of the portfolio.**

On average, less than 35% per year.

**A Trading Network provides all our clients with best pricing.**

We access over 30 institutional broker/dealers seeking competitive bids and offerings.

## 3. APPENDIX

**For the 3-months ended 6/30/2022, the Short Duration-Investment Grade Strategy's gross total return was -2.30% (-2.36% net of fees) underperforming the -1.94% return of the Bloomberg U.S. Corporate 1-5 Year Index. The principal factors affecting performance were:**

- 1. Credit Quality.** CAM limits its exposure to BAA-rated credit, which averaged 28.69% during the period vs. the index average of 44.42%. CAM's net positioning within BAA-rated and lower rated securities resulted in a -1 basis point contribution to excess return.
- 2. Maturity and Duration.** Longer dated paper underperformed during the period, and CAM's positioning within the 3-5 and 5-7 year duration buckets produced a combined -15 basis point contribution to excess return versus the index.
- 3. Security Selection.** CAM's weighting and positioning within the Automotive and Finance Company industries generated +3 and +4 basis point contributions to excess return, respectively. Negative contributors include our exposures in Banking and Wireless, which drove -12 and -8 basis point contributions, respectively. Given the negative returns during the period, CAM's average cash position of 2.37% had a +4 basis point impact on performance vs. the index.

**For the year-to-date period ended 6/30/2022, the Short Duration-Investment Grade Strategy's gross total return was -6.51% (-6.63% net of fees) underperforming the -5.60% return of the Index. The principal factors affecting performance were:**

- 1. Maturity.** Given the move in interest rates, longer duration credit underperformed during the period, and CAM's positioning within the 3-5 and 5-7 year duration buckets produced a combined -39 basis point contribution to excess return versus the index.
- 2. Security Selection.** CAM's weighting and positioning within the Automotive and Media Entertainment industries were the largest positive impacts to performance, generating +8 and +7 basis point contributions to excess return, respectively. Our exposure to the Banking industry was the largest negative contributor producing a -28 basis point contribution. Exposures in the Wireless and Technology industries also had a negative impact to relative performance, producing -18 and -15 basis point contributions to excess return.
- 3. Credit Quality.** CAM limits its exposure to Baa-rated credit, which averaged 29.2% during the period vs. the index average of 44.68%. Lower tier Baa quality credit outperformed during the period, and CAM's net positioning within Baa-rated and lower tier securities resulted in a +5 basis point contribution to excess return.

### **William S. Sloneker**

Bill started his career with Ohio Casualty Insurance in 1976. Prior to CAM, he was a Director and Executive Vice President of Ohio Casualty Corp., responsible for actuarial analysis and the investment of over \$2 billion in common stocks and government, corporate and municipal bonds. B.A. English & Art History, Yale University; MBA Finance & Marketing, University of Pennsylvania, The Wharton School.

### **Joshua M. Adams, CFA**

Josh began his career in 2004 with Cincinnati Financial Corporation where he was responsible for managing a portion of a multibillion-dollar bond portfolio. He has focused on fixed income for the majority of his career and has extensive experience in both investment grade and high yield corporate credit. Josh has earned the Chartered Financial Analyst designation. B.S.B.A. Finance, The Ohio State University; MBA, Xavier University.

### **Richard M. Balestra, CFA**

Rich started his career with Cincinnati Financial Corporation in 2000. He has significant experience in corporate credit research and has focused on the high yield sector. Rich has held various analyst and portfolio management roles over his tenure and was most recently responsible for \$3.5 billion in firm assets. B.A. Finance, University of Cincinnati; MBA, Xavier University, Williams College of Business Administration.

### **Richard J. Gardner**

Rick began his career with Banc One Funds in 1993. His career also includes portfolio management for The Federal Home Loan Bank and Huntington National Bank, where he managed several corporate and government bond mutual funds. Prior to joining CAM, he was a senior portfolio manager for the \$1.2 billion Ohio Police and Fire Pension Fund. B.S. Finance and Accounting, Wright State University.

### **Randall S. Hale**

Randy started his career with Cincinnati Financial Corporation in 1984. Prior to joining CAM, Randy managed the taxable fixed income portfolio at Cincinnati Financial, an S&P 500 insurance holding company. The \$1 billion portfolio included a significant exposure to high yield securities. Responsibilities included investment strategy, research and trading. B.S. Finance, Olivet Nazarene University.

### **Nicholas M. Collura, CPA**

Nick's career began in 2002 with 9 years of meaningful public accounting experience, primarily with KPMG LLP. At CAM he leads the team responsible for financial management and reporting, the risk and control framework, and the middle and back office operations across the firm. He is a Certified Public Accountant, holds a Certificate in Investment Performance Measurement, is a Certified Internal Auditor, and a non-practicing Certified Information Systems Auditor. B.B.A. Finance and Information Systems, Miami University.

The Broad Market composite includes investments in fixed income securities with credit ratings averaging Baa2, an average duration between five and six years and an average maturity of seven to nine years. The Short Duration-Investment Grade composite includes investments in fixed income securities with credit ratings averaging A2 with at least one investment grade credit rating and an average maturity of two to four years. The ESG Aware Investment Grade composite includes investments in fixed income securities with credit ratings averaging A3 with at least one investment grade credit rating and an average maturity of five to ten years. The ESG Leaders Investment Grade composite includes investments in fixed income securities with credit ratings averaging BAA with at least one investment grade credit rating and an average maturity of five to ten years.

The Adviser's investment performance data conform to the following standards since inception:

- a) *The composites consist of all discretionary portfolios in each respective style under management, including all securities and cash held in the portfolios, appropriately weighted for the size of the portfolios. All portfolios are included after three months under management or upon reaching 65% invested by CAM, whichever occurs first.*
- b) *Returns are calculated monthly in U.S. dollars and include reinvestment of dividends and interest.*
- c) *Gross of fees performance results include all transaction costs and exclude management fees. When performance is compared to Lipper mutual fund averages gross performance net of CAM's management fees is used.*
- d) *For the period from April 1, 1989 through 1992, the High Yield composite includes all assets of all accounts that meet the above criteria, except that not all accounts were added to the composite by the beginning of the third full reporting period for which the account was under management. In addition, prior to 1990 certain diversification requirements were not met.*

The indices shown for comparative purposes are based on or derived from information generally available to the public from sources believed to be reliable. No representation is made to their accuracy or completeness.

“Gross Yield Comparisons”: CAM yields are for client account purchases over the last thirty days, gross before the impact of fees or expenses.

**Past performance should not be taken as an indication of future results.**

**High Yield bonds may not be suitable investments for all individuals.**

**This presentation is for informational purposes and is not an offer to solicit the purchase or sale of securities.**

“Bloomberg®” and Bloomberg US Corporate Index, Bloomberg US Corporate High Yield Index, Bloomberg US Corporate 1-5 Year Index, and Bloomberg Intermediate US Corporate High Yield Index are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited (“BISL”), the administrator of the index (collectively, “Bloomberg”) and have been licensed for use for certain purposes by Cincinnati Asset Management, Inc. Bloomberg is not affiliated with Cincinnati Asset Management, Inc., and Bloomberg does not approve, endorse, review, or recommend any product noted herein. Bloomberg does not guarantee the timeliness, accurateness, or completeness of any data or information relating to any product noted herein.

This information is intended solely to report on investment strategies identified by Cincinnati Asset Management. Opinions and estimates offered constitute our judgment and are subject to change without notice, as are statements of financial market trends, which are based on current market conditions. These charts are not intended to be used by themselves as investment advice, a recommendation to purchase or sell specific securities, or to adopt any particular investment strategy. Fixed income securities may be sensitive to prevailing interest rates. When rates rise, the value generally declines. Gross of advisory fee performance does not reflect the deduction of investment advisory fees. CAM's fees are disclosed in Form ADV Part 2A. Accounts managed through brokerage firm programs usually will include additional fees. Returns are calculated monthly in U.S. dollars and include reinvestment of dividends and interest. The indices noted are unmanaged and do not take into account fees, expenses, or transaction costs. They are shown for comparative purposes only and are based on information generally available to the public from sources believed to be reliable. No representation is made to their accuracy or completeness. It is not possible to invest directly in an index. Past performance is not a guarantee of future results.
